

❖ Steel Pails

❖ Steel Pails

APPLICATIONS

Chemicals, Edible Oils, Lubricants, Hi-tech/Hi-solids Coatings, Roofing Mastics and Adhesives, Railroad Spikes, Driveway Sealers, etc.

INTERIOR PAIL LININGS

Full range of phenolic and epoxy/phenolic linings provide protection across a broad range. Unlined pails can be treated with a Rust Inhibitor.

SPECIAL FEATURES

- ▶ UN certifications for a wide range of products are readily available.
- ▶ Non-certified pails are also available.
- ▶ Full lithography available for bodies and covers.
- ▶ Black, dark gray and light gray are standard colors.
- ▶ Covers for openhead pails are packed 36 per carton or bulk palletized.

PACKING INFORMATION

- ▶ Pails are stacked on corrugated trays. The complete unit is then strapped for shipment.
- ▶ Covers are placed on top layer of pails or shipped separately 36 per carton or bulk on pallets.
